

Identifying Child Care/Classroom Routines and Activities

Teaching and learning opportunities occur throughout the day. We'd like to hear about your typical daily schedule so we can identify routines and activities that are both comfortable and convenient to you and fun and engaging for _____. _____'s intervention will be planned to occur as much as possible within typical daily routines.

- ★ What times/days does _____ attend?

- ★ What are the routines/activities that occur on a scheduled basis in your program?
Morning _____ Afternoon _____

- ★ What activity occurs on a less than regular basis (e.g., library volunteer reader once a week)?

- ★ What routine/activity does _____ enjoy?

- ★ Describe the typical sequence from start to finish. (Identify one of the child's preferred routines/activities.) Based on information shared in the description, consider these additional questions as appropriate:

 - What specific strengths or needs does _____ have in this routine/activity?
 - What are your (teacher's) expectations of the children during this routine/activity?

 - How do you let the children know what is expected in each routine/activity?

- How many other children participate in this routine/activity?
- How do they interact with _____?
