### Defining the concern/problem - What is the concern/problem?

---

---

---

---

---

---

---

---

### Identifying the data - What are the facts?

---

---

---

---

---

---

---

---

### Generating ideas - What things can I (we) do?

---

---

---

---

---

---

---

---

**Choosing solutions - Which one(s) is the best? Is there an alternate plan if solution #1 breaks down?**

---

---

---

---

---

---

---

---

**Developing the plan - Who will do what? When? How will communication across participants occur if needed?**

**WHO**

**WHAT**

**WHEN**

---

---

---

---

---

---

---

---

**Planning the evaluation - How will you know when the problem or concern is resolved?**

---

---

---

---

---

---

---

---

**Evaluating the plan - Did it work? How will you know?**
